The future of work in Europe

Automation, workforce transitions, and
the shifting geography of employment

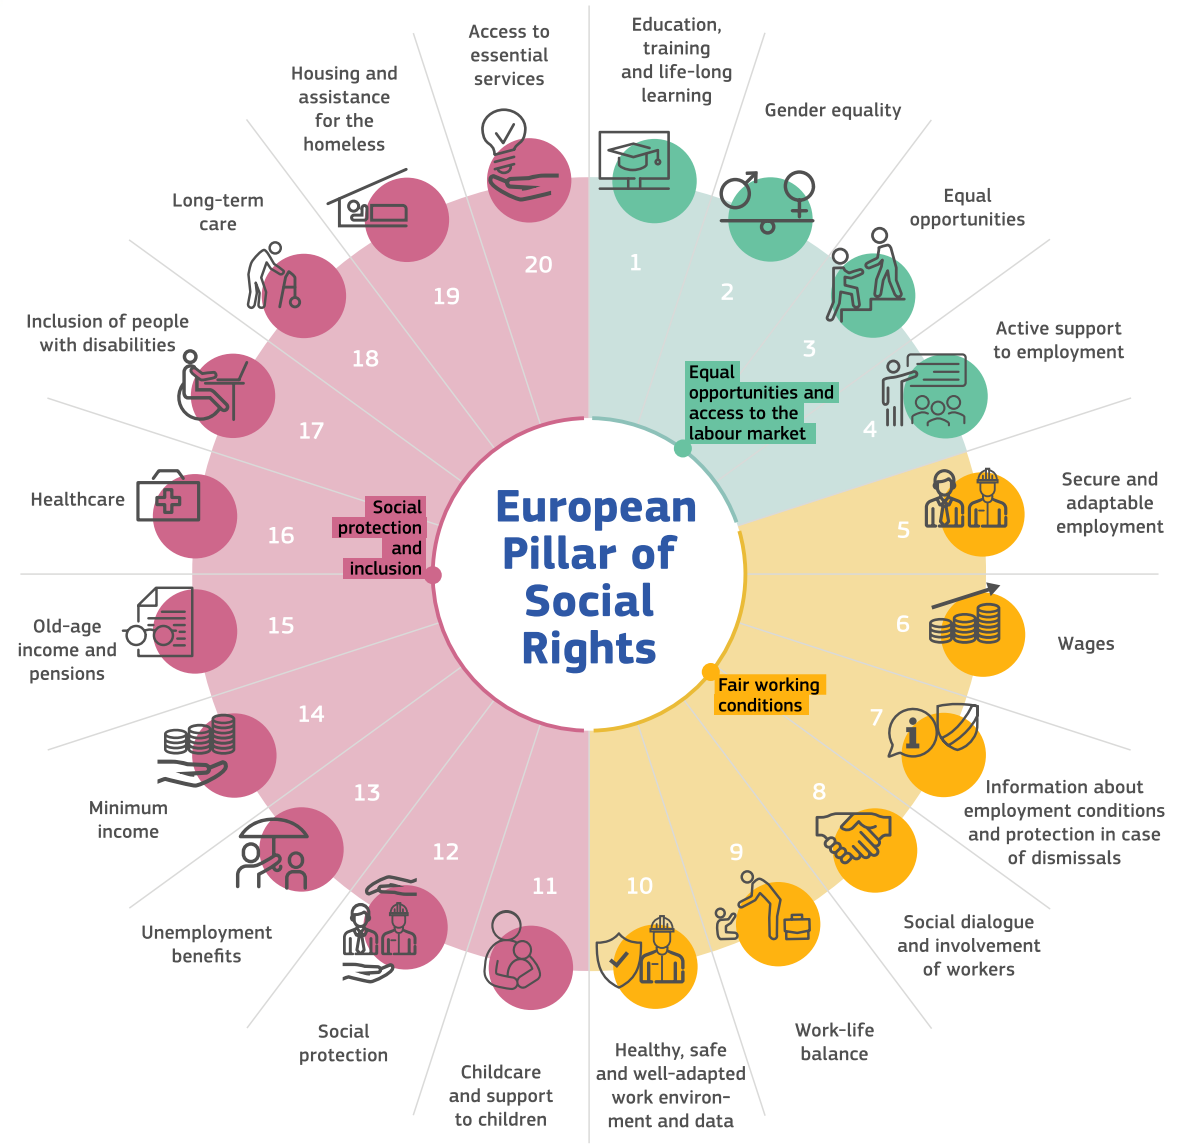

**“22% of current work activities
(equivalent to 53 million jobs) could be
automated by 2030”**

**“About 94 million workers may not need
to change occupations but will especially
need retraining”**

“Too few people participate in regular learning after initial education across Europe.”

“60% of all adults should be participating in training every year by 2030”

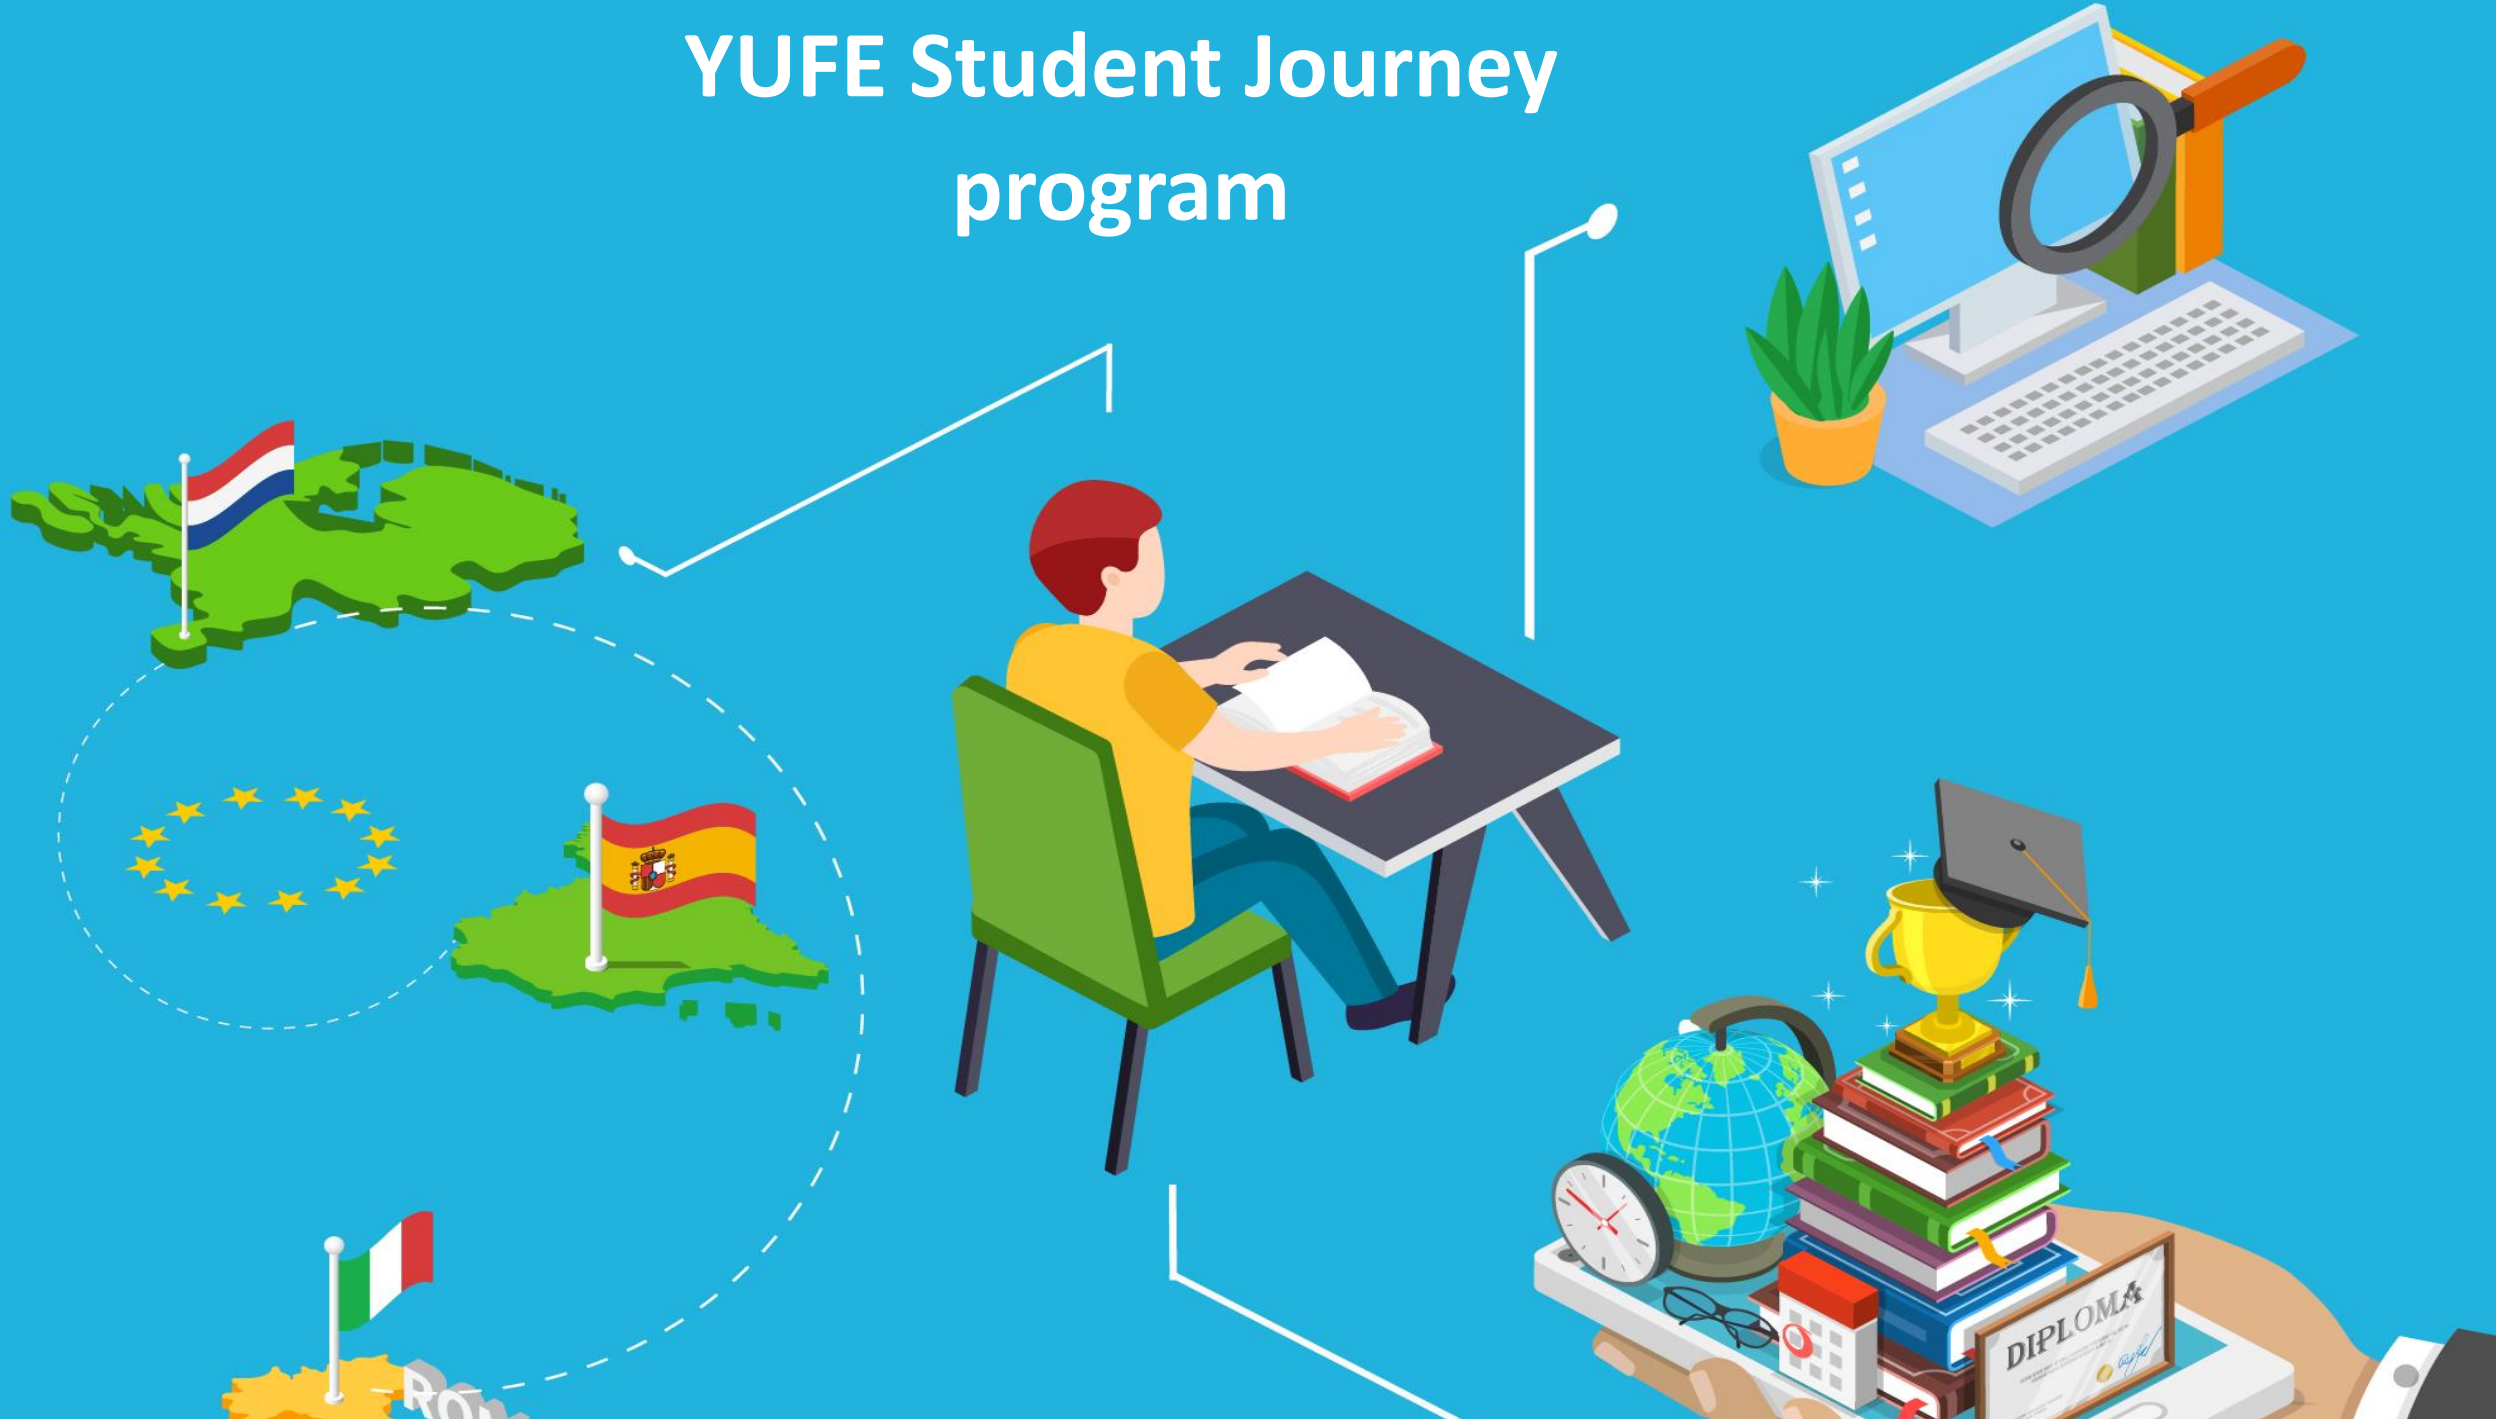

Visoko obrazovanje budućnosti

- Cjeloživotno učenje i autonomija studenata (odgovornost za učenje na samom studentu)
- Generičke/transverzalne kompetencije - primjenjive u različitim kontekstima
- Fleksibilnost i modularnost studija
- Spoj teorije i prakse kroz problemski pristup učenju
