A teacher of the Civil Engineering doctoral study that satisfies the criteria for doctoral mentors prescribed by the University of Rijeka

(https://www.gradri.uniri.hr/files/doktorski_studij/Odluka_o_utvrivanju_minimalnih_kriterija_za_odabir_mentora_na_PSS_poieni_tekst_010419.pdf) can be appointed as mentor no later than by the end of the second semester.

If the conditions and funds for the doctoral student are secured from competitive sources, it is not necessary to meet the criteria for mentors.

The table below lists the Study teachers who meet the prescribed conditions at the beginning of the 2024/2025 academic year.

Notes:

In order to be appointed, the mentor must meet the proposed requirements, must be issued a positive judgement by the holder of the study on their mentoring work and can mentor a maximum of three students at the same time. Exceptionally, in duly justified cases, a mentor can be allocated up to a maximum of five students. The provisions of all applicable regulations and acts relating to the mentor shall be applied to the co-mentor accordingly.
